Career Objective

Dynamic and motivated React developer with a strong passion for full stack web development. Eager to learn new technology and apply my expertise in crafting visually stunning and user-friendly interfaces that elevate user experiences. Seeking a challenging opportunity to contribute my skills anddrive innovation at a destination where I can thrive and make a meaningful impact.

Skills

Expertise:	HTML	CSS	Bootstrap	Tailwind CSS	DaisyUI	JavaScript	ES6	React	React Router	MongoDB	ExpressJS	FirebaseAuthentication
Comfortable:	Firebase	ExpressJS	Rest API	Material UI	MySQL
Familiar:	NodeJs	Redux	Typescrip
Tools:	VS Code	Git	Figma	Netlify	Vercel	Firebase Authentication	Chrome Dev Tools
Soft Skills:	Effective Communication	Teamwork and Collaboration	Leadership	Adaptability

Projects

HotelHeaven (A hotel booking system)   Live Link | Client Side Github | Server Side Github

Technologies Used: React | TypeScript | Redux & RTK | Tailwind CSS,| chartjs | Express | MongoDB | Mongoose etc

Key Features: Our platform provides a seamless experience with streamlined user management, role-specific access controls, easy hotel exploration, interactive blog engagement, secure reservation facilities, efficient booking management, exclusive deals, and intuitive map integration for a comprehensive and user-friendly interface.

PixiePlay (A Car Toys Market place for Kids)   Live Link | Client Side Github | Server Side Github

Technologies Used: React JS | Express.js | React Router | Tailwind CSS | Daisy UI | HTML | CSS | MongoDB | Firebase Authentication etc.

Key Features: The car toy platform, built with React, TailwindCSS, and DaisyUI, features a Firebase-powered registration/login system, an interactive homepage with a navbar, banner, and category sections. Users can explore "All Toys," while the "My Toys" section allows logged-in users to update and delete their products, with a "View Details" button requiring authentication for access.

Roshui Ghor (A recipe Showcasing Website)   Live Link | Client Side Github | Server Side Github

Technologies Used: React JS | Express.js | React Router | Tailwind CSS | Daisy UI | HTML | CSS | MongoDB | Firebase Authentication | Nodejs | Ex[ress.js etc.

Key Features: The project showcases Chef lists and recipes from various subcontinent cuisines, loading data from the backend on the homepage. Each Chef card contains basic information, with a "View Recipe" button redirecting to the chef's recipes, accessible only to logged-in users through three Firebase authentication systems.

Professional Courses

- Jan 2023 -Jun 2023 | Programming Hero | Complete Web development Course with Jhankar Mahbub
- Jan 2018- Aug 208 | Advanced Professional Web Development Course | BITM

Education

- B.Sc. in BIT (Business Information Technology) | First Class (72% Marks) | University of Greenwich | Jun 2015 – Jan 2020
- M.Sc. in Software Engineering | CGPA: 3.52 | Daffodil International University | July 2021 – June 2023

Previous Experiences

- Junior IT Specialist at Sylhet Divisional Health Office (A Project Under ADB) | April 2022 – December 2022
- Digital AdOps Executive at ServiceEngine Ltd (SEBPO) | Dec 2020 – April 2022

Language Proficiency

Bengali (Native) and English (Fluent).
